HEAVY METAL BAND FROM SOUTH GERMANY - SCHWABISCH GMUEND

PhallaX

is not a postal service, no war formation or other wort for male genitals either. It's a totally new created word to describe the melodic metal, the fun and power of this band on stage and the way this band is acting. As formed in 2004 in Schwäbisch Gmünd (near Stuttgart), to do cover music they did first own songs and liked it. So PhallaX became well-known in Swabia. In 2008 they startet working on the debut album „The Chandlers Passion“ which was released and published without label.

Two years later, 2010, the band started working on the „Lower The Flags“ EP. Together with former STORMWITCH guitarist Martin Winkler as producer, they put the sound on a new level. This and the mature personality caused almost perfect ratings from the press on the crowd. The album was released in december 2011.

After a few smaller gigs and also shows with bands like MOB RULES, TANKARD and GUN BARRELL the first big tour started in 2013 with the US metal legends VICIOUS RUMORS. PhallaX made new fans and supporters with it all over europe. In 2014 the recordings for the "Relics Of Harmony" album started. Again the used the knowledge and creativity of Martin Winkler.

The band wanted to full concentrate on the music and so a record deal with METALAPOLIS RECORDS was signed.

The "Relics Of Harmony" was released in Ferbruary during a release tour with mighty CHROME DIVISION from norway. Also "Out & Loud Festival" booked PhallaX, so they played with bands as HELLOWEEN, HAMMERFALL and GRAVE DIGGER.

In 2016 more festivals and club shows were played to increase and make more fans. Already and the end of 2016 a few new songs were played live. The shall be also on the new record as yet unheard songs. This new one it to be out in 2017.

Das Album bietet so ziemlich alles was der Metal-Fan von einem Album dieser Art erwartet.

metal.de 7/10

Der hohe Qualitätsstandard im Hause PHALLAX zeigt sich nicht zuletzt darin, dass praktisch alle Songs flott nach vorne gehen und Druck machen, ohne dass dabei echte Langeweile aufkommt.

Rock-it 7/10

Eine musikalische, hammerharte Druckwelle, ohne jeglichen Trendeinflüsse, die da über die Alpen kommt und somit bedingungslos zu empfehlen ist.

Live-Bericht

Nun betritt die Power-Metal-Band PHALLAX die Bühne, die von Beginn an mit einer erfrischenden, klaren Stimme des Frontmanns zu punkten weiß. Die Untermalung seines Gesangs durch die anderen Bandmitglieder ist nahezu ideal ausgearbeitet. Schnell treibt sich eine gewisse Begeisterungswelle durch das Publikum,
