

PhallaX

OFFIZIELLE BIOGRAPHIE GER

is not a postal service, no war formation or other wort for male genitals either. It's a totally new created word to describe the melodic metal, the fun and power of this band on stage and the way this band is acting. As formed in 2004 in Schwäbisch Gmünd (near Stuttgart), to do cover music they did first own songs and liked it. So PhallaX became well-known in Swabia. In 2008 they startet working on the debut album „The Chandlers Passion“ which was released and published without label.

Two years later, 2010, the band started working on the „Lower The Flags“ EP. Together with former STORMWITCH gitarist Martin Winkler as producer, they put the sound on a new level. This and the mature personality caused almost perfect ratings from the press on the crowd. The album was released in december 2011.

After a few smaller gigs and also shows with bands like MOB RULES, TANKARD and GUN BARRELL the first big tour started in 2013 with the US metal legends VICIOUS RUMORS. PhallaX made new fans and supporters with it all over europe. In 2014 the recordings for the “Relics Of Harmony” album started. Again the used the knowledge and creativity of Martin Winkler.

The band wanted to full concentrate on the music and so a record deal with METALAPOLIS RECORDS was signed.

The "Relics Of Harmony" was released in Ferbruary during a release tour with mighty CHROME DIVISION from norway. Also "Out & Loud Festival" booked PhallaX, so they played with bands as HELLOWEEN, HAMMERFALL and GRAVE DIGGER.

In 2016 more festivals and club shows were played to increase and make more fans. Already and the end of 2016 a few new songs were played live. The shall be also on the new record as yet unheard songs. This new one it to be out in 2017.
